\$1,000 ESSAY CONTEST INSTITUTED AT UM

MISSOULA---

A unique essay contest has been established at the University of Montana and Montana State University by Dr. Norman J. Holter, president of the Holter Research Foundation, Helena.

The contest is designed for undergraduate students and carries a \$1,000 prize. To win the contest a student must submit an essay describing some original research work he has done which encompasses both physical and biological science experimentation done with instruments. Any undergraduate of either institution is eligible for the contest.

Essay judges in addition to Dr. Holter are Dr. Marshall H. Brucer, nuclear medical consultant, Tucson, Arizona; Dr. Irving E. Dayton, professor of physics, Montana State University; Dr. Carl Larson, professor of microbiology and director of the Stella Duncan Memorial Institute, UM; Harold C. Urey, professor of chemistry at large, University of California at San Diego, and a Nobel Laureate.

Dr. Holter was formerly a specialist in physics and assistant to the chancellor at the University of California at San Diego.
